Second Payment of Wheat Pool 35c.

CHEQUES ARE NOW BEING MAILED

An interim dividend of 35 cents a bushel, representing \$12,000,000, is being made of the pool farmers of Alberta, according to the report of the board of trustees. This interim payment, which commenced on Monday, and is the second on the 1924 crop, is almost a fortnight earlier than last year, when the payment was held on 24,000,000 bushels. Even on that basis approximately \$12,000,000 will now be released. As the pool officials have from time to time stated, that many more contracts have been signed up, in the meantime it is probable that a sum in excess of this will be paid out. The interim payment will be 10 cents.

The three prairie province pools will pay out approximately \$20,000,000 to 20,000 farmers, the payment being the same in Manitoba and Saskatchewan.

West Wins in Crow's Nest Pass Appeal

The Western provinces have won their appeal in the Crow's Nest Pass case. The Supreme Court of Canada having decided that the Crow's Nest Pass Act is binding on the Board of Railway Commissioners. The court, however, holds that the Crow's Nest rates are not applicable to points east of Fort Collins on the C.P.R.

The decision of the Supreme Court affords the battle to the Board of the Dominion parliament. That the government proposes to bring down a measure for the relief of railway freight rates has already been intimated and, when informed of the ruling of the Supreme Court, the Hon. G. H. Ross, minister of railways, stated that the whole question could not be left until now. Although consideration has been given to relieving rates, the railway has been waiting for the court's decision before making a final move on the policy.

First steps toward the formation of a national railway company are now being taken for the marketing of coal and vegetables as recommended in the report of Lewis Thomas, of Toronto, on the treatment of the coal plant economy in the fruit and vegetable trade. Western Canada, according to G. H. Ross, is now representative of co-operative fruit growers associations.

Non-Taxpayers and Medical Relief Bill

Non-taxpayers in municipal districts of Alberta will be called on to contribute up to \$1 per month each for a medical relief fund for the terms of a bill introduced in the Legislature by Hon. G. H. Ross, minister of health and agriculture. The bill provides for the relief of indigent persons who are not taxpayers in any municipal district, and who are in need of medical relief and in improvement districts.

The bill is to be given through a board, which collects a varying sum of money from each district. Each district furnishes such sum either in full or in part by means of a tax not to exceed \$1 per month. Non-taxpayers who are not otherwise taxpayers.

Oil-Producing Province

Barred the opinion upon expert testimony in the Alberta oilfield during the past twelve years. K. G. H. Ross, minister of health and agriculture, declared that Alberta would become one of the greatest oil producing provinces in the world. Without wishing to discourage the efforts of those now operating in oil fields, he declared that his opinion the largest producing area in the deep southern foothills of the Rocky Mountains.

Mr. Slipp said that the large gas supplies and the low cost of gas, coupled with the low cost of oil, are the factors which are now producing such a large amount of oil in the province.

Immigration of Farmers.

The effect of the present immigration policy in encouraging farmers from foreign lands, and from household workers to come to Canada is indicated by a recent analysis according to figures recently issued by the immigration department. RETURN OF ALBERTA'S

NATURAL RESOURCES

While the Alberta government has

accepted the offer of the Federal

government for the return of the

natural resources along with

three years subsidy, there are many

details to be adjusted before the

agreement, after the manner of

the Maritime Provinces, can be

reached the stage of ratifying

legislation. Moreover, after the

completion of the return of the

natural resources, the Dominion then

are intervening considerations be

set up by other provinces which,

it is said, may have an arduous

inference.

British Columbia, in connection

with the natural question of adjust-

ing claims for the railway belt and

the case of the Dominion, has been

has been with a demand that

Alberta should not exclusively

control the natural resources, and

the Maritime Provinces have with

the return of the old claim of a certain

property interest in territorial
